JOAQUIN MILLER
HIGH SCHOOL

1973

*The Torch is published by
the students of Joaquin
Miller High School, Reseda,
California.*

During the past year many events took place, along with regular news items, which caught our attention. Among them was our last Apollo moon flight, with its successful landing in mid-December. Progress was made toward project Viking, an unmanned spacecraft which will soft-land on Mars in 1976. This year also marks the first joint venture in space between the United States and Russia.

With the end of the Apollo program, we now are ready for the next phase of manned space exploration. Even as you read this, the men of Skylab will be gathering information for the space explorers of the future, for as astronaut Dave Scott said, "Man must explore."

But another event took place this year which must be noted here. The involvement of the United States in affairs of Southeast Asia came to an end, and our P.O.W.'s have returned home to us. Peace has been uppermost in our thoughts and it seems entirely fitting that our astronaut stepped on the moon in December with the words, "We come in peace."

SENIOR CLASS WILL

I, Nancy Adlen, will my book collection of the Patridge Family to Abby Roberts; my friendship to Denise Milo with a book "T-Birds On The Go."

I, Wanda Lee Cox, being of sound mind (?) and fantastic ability leave my 'smile' to Mr. Shehorn, my love and feelings to Brian Kerr; to Toni Falls my love and hope; to Terri Salyer my understanding; to Debbie Meerschaert the feelings to live for one's self; to Mr. Labeaud the word 'dude'; and my heart and soul to the staff and students of Miller High.

I, Donna Crouse, leave, happily!

I, Jimmie R. Davis, being of sound mind and body, hereby decree my Playboy record to Eddie Lambathas and love to Chris Berg; knowledge to whoever needs it; and looks to Randy Johnson.

I, Vicky Holmes, being of sound mind and body (?) will lots of love to Mrs. Jubert; to Bob Johnson my everlasting friendship; to Debbie Meerschaert many thanks, and to the staff and students Miller High best wishes for the future.

I, Kevin Drennan, being of sound mind and body, bequeath to Sean Gonlon all tapes and records from my collection; Rose Patton the privilege of listening to those tapes; a steady hand on a 'fast' Coke nozzle to Duane Joslin; a projector that is always in focus to the lucky guy next year; to Mr. Davis, an old Irish wish, "Health, Wealth and Love and time to enjoy them."

I, Toni Falls, leave to Terri Salyer three A's on her next report card; to Mr. Labeaud a private secretary; to Mr. Scharn a box of nerve tablets; to Mrs. Perrott a year's supply of Coca-Cola to tide her over; to Mr. Curry a wolf whistle for whistling at the girls; my locker to Cecilia Gergich; to Mrs. Baxter two extra hands to help her with her typing; and to Miller High students and staff - no problems in the following years.

I, Marcy Franklin, leave my love to Sam Firestone; my locker to Pamela Kimberly; my absence slips to Mrs. Baxter; my box lunches to Mrs. Dunn; my driver's license to Mr. Muenich; my records to Mr. Shehorn; my fights with Sam to Mr. Scharn; my pictures to Mrs. Boston; my contracts to Mrs. Richardson.

I, Peter Guarnieri, will my drive to play to future ping pong players with the thought in mind that you don't always win! To Mrs. Lewis I leave two syringes, a lamp, and a box of cotton balls; to Mrs. Dunn I leave all my \$2 installment receipts; to Miss Benkell I leave a 'WHOPPER,' as she showed me where a real burger is; to Mr. Scharn I leave detailed instructions on how to make a stereo cabinet complete with interruptions every two minutes; to Mr. Sharp I leave my Gemco Scholar quiz day and a 20 foot bullwhip; to Mr. Curry I leave; to Mr. Shehorn I leave 'good luck' (it helps); to Miss Flowers I probably leave negative thoughts of myself (not really); to Mrs. Perrott I leave nothing but memories for a couple of great years. I also leave a sixpack; to Mrs. Jubert I leave first place for being a winner; to Mr. Stoy I leave 100 classic novels including Gulliver's Travels and old memories from reading English.

I, Rick A. Harback, being of sound mind and body, or was until I ate the food at Miller, request that Miller be put in quarantine, and the people, too, for making the food. I will to S.M., S.G., R.S., F.J., A.Y., and A.S. your I.O.U.'s; to Mr. Stoy I take all the knowledge that you have given me in the last six years; to Mrs. Perrott I leave your love notes to me, better known as unsatisfactory 'notes.'

I, Fred High, leave peace and quiet to Mr. Curry; my witty little comments to Mr. Stoy; my love to Teresa Perez; my locker to Richard Spendley; my math talent to Mr. Harsha, and all my class problems to Mr. Sharp.

I, Jim Horsley, will my locker to the next year seventh grader who is small enough to fit into it. My service job of pushing wheelchairs I will to an eleventh grader who has the muscles for work.

I, Yvonne Lopez, being of exceptionally (?) sound mind and body will to Mr. 'Dude' Labeaud the future 'drug-mad' teenagers; to Debbie Meerschaert I leave the memories of our long friendship; my Roadrunner 'engine' to Rick Shimmin; to Miss Flowers I leave the strength to put up with her new homeroom; I leave my wheelchair to Terri Salyer; and to my favorite Mr. "Tubby" Curry I leave him a one-year membership card to the spa of his choice, the saying 'thin may be in, but fat is where it's at,' and a special thanks for his always remembered friendship; to Mr. Scharn I leave the memory of the sexiest basketball player ever on the team. To the rest of the faculty and students, 'Good Luck!'

I, Sue Marine, leave my flute to Mr. Cutler; my absent cards to Mrs. Baxter; my books to Connie Davidson, and my locker to whoever uses it next.

I, Steven Michael, being of sound mind and body leave to Mrs. Jubert all my archery ability; to Rick Harback I leave my I. O. U. 's for all the money I borrowed, and to Mr. Labeaud I leave my artistic ability.

I, Abby Roberts, being of sound mind, leave all my love to Mrs. Jubert. I leave my records to Nancy Adlen. I leave my art projects to Mr. Labeaud. I leave my friendship to Lynn Volger and Lynn Mondschein. I leave my reading books to Denise Milo. I leave my checkers game to Mr. Stoy.

I, Robert Williams, leave my class and the school forever; to Jon Miller I leave my Rock songs; to Chris Michael I leave my kisses; to Cindy Klem I give my parties; to Mrs. Melton I leave my kindness; to Mrs. Perrott I leave my hair; to Mr. Curry I give the mountains, and to the other people of Miller High I leave everything that's in the school.

To all the teachers and people at Miller High I'm writing this short letter of thanks. I know it was hard and nerve-racking for you to put up with me. I'm not very patient many times and very changeable. I know it took a lot of time to understand my habits, but everyone took their time and went out of their way to, at least, try. I'm very thankful to Gene, the helping hand that was always there when I needed it. I would like to thank the bus drivers also for taking their time carrying me on and off the buses. They too had to give their time. To my teachers a very special kind of thanks because without their help I wouldn't have learned the many things I did because they took the time. Thanks for our Joaquin Miller for without it, what would we have done? Where would we have gone? Thank God for our school and all the people in it. There are no words to express the real thanks that I and my family feel. Sincerely,

Richard B. Yopez

READING AND MATH LABS

COMPUTER SYSTEMS'

The intended purpose of the reading lab is to provide specific personalized instruction unique to the needs of each student so that he or she discovers, develops, and reinforces the skills and pleasures of a comfortable reading level, applicable for various uses. Since it's so crowded, the reading lab seems to be reaching its goal.

The purpose of the math lab is to individualize the math instruction at Miller in a way that will enable each student to work in mathematics at his level. The difference between a math lab and a math class is that in a math lab students can come and go when they wish because there are no set periods. We are hoping that not only the math lab will be a center of learning, but also a place where one can come to see the pleasures of mathematics.
